 Page 6 . . .

DISCUSSION/ANALYSIS:

- The application amends the Carvolth NP and rezones the lands to Comprehensive Development Zone CD-186 to allow development of 223 apartment units in two 6-storey buildings at a density of 2.62 FSR.
- Five watercourses are subject to the application: three onsite and two offsite in the 86 Avenue road dedication. The subject watercourses are proposed to be consolidated and protected on the northern portion of the site.
- A 0.2 ha (0.5 ac) pocket park is proposed to be developed in two areas on either side of the Streamside Protection and Enhancement Area (SPEA).

Adjacent Uses:

	Existing Use	Neighbourhood Plan Designation	Existing Zoning
North:	86 Avenue beyond which is community stormwater detention facility, a conservation area and a 4-storey office building.	Transit Exchange, Conservation Area and Office / Mixed Use 1	Comprehensive Development Zone CD-138
South:	85 Avenue, beyond which is a 6-storey apartment building fronting 202 Street and 3-storey townhouses fronting 201B Street.	High Density Apartment (2.4 / 2.8 FSR, site specific amendment to 2.86 FSR max) Townhouse (50 upa)	Comprehensive Development Zones CD-121 and CD-139
East:	Future 202 Street beyond which is a lot currently under application for a mixed-use building with 3,632 m ² (39,095 ft ²) of commercial and office space and a residential development with 170 apartment units (ToL Project No. 08-26-0165)	High Density Mixed Use (2.5 FSR) High Density Apartment (2.4 / 2.8 FSR)	Suburban Residential Zone SR-2
West:	201B Street beyond which are 6-storey apartment buildings and a mixed-use building currently under construction (ToL Project No. 08-26-0206).	Apartment Live Work (2.0 FSR, site specific amendment to 2.34 FSR) High Density Apartment (2.4 / 2.8 FSR) Medium Density Apartment (1.9 FSR)	Comprehensive Development Zone CD-140

Proposed Carvolth Neighbourhood Plan Amendment:

- The site has five land use designations in the Carvolth NP including a Conservation Area along a watercourse and a requirement for a pocket park.

OFFICIAL COMMUNITY PLAN AMENDMENT AND REZONING
 APPLICATION NO. 100183 AND DEVELOPMENT PERMIT
 APPLICATIONS NO. 101105 AND 101225 (1078245 BC LTD.
 / 1118375 BC LTD. / HY ENGINEERING LTD. / 20186 AND
 20212 - 86 AVENUE)
 Page 7 . . .

- The pocket park and conservation area are incorporated into the northern 0.65 ha (1.73 ac) of the site. As a result, there are no apartment buildings proposed on the High Density Mixed Use and Apartment Live Work designated portions of the site adjacent to 86 Avenue.
- The proposed development is for two 6-storey buildings with a total gross floor area (GFA) of 17,640 m² (189,872 ft²) on the southern 0.67 ha (1.67 ac) portion of the site at a proposed FSR of 2.62. Although section 2.4.18 of the Carvolth NP does not allow density to be transferred between land use designations, the proposed development is consistent with the overall goals of the Carvolth NP and results in building sizes less than if the densities were aggregated.

Land Use Designation	Permitted GFA	Proposed GFA
High Density Apartment (2.8 FSR)	11,321 m ² (121,856 ft ²)	10,635 m ² (114,473 ft ²)
Medium Density Apartment (1.9 FSR)	6,356 m ² (68,417 ft ²)	7,005 m ² (75,399 ft ²)
	17,677 m ² (190,273 ft ²)	17,640 m ² (189,872 ft ²)

- Given that density cannot be transferred between land use designations, a plan amendment to replace the Medium Density Apartment land use designation with High Density Apartment at a maximum FSR of 2.8 is required to accommodate the proposed development.
- The conservation area is provided consistent with the Carvolth NP noting that Bylaw No. 5895 updates the location of the watercourse to reflect survey information.
- A 0.2 ha (0.5 ac) pocket park is proposed to be developed in two areas on either side of the SPEA on the northern portion of the site consistent with the Carvolth NP.
- The Carvolth NP mobility strategy identifies a lane on the subject site. The proposal to amend the plan also includes removal of the subject lane. The applicant is including a multi-use path as a pedestrian connection on the south side of the conservation area from 202 Street to 201B Street to maintain the connectivity objectives of the Carvolth NP.

Zoning Amendment:

- Bylaw No. 5896 proposes to rezone the site to Comprehensive Development Zone CD-186 to facilitate development of 223 apartment units in two 6-storey buildings.
- The project complies with the provisions of the site's proposed Comprehensive Development Zone CD-186 zoning in terms of siting, site coverage, height, use, and density.

Development Permit:

- The subject property is located in Development Permit Area "M" in the Willoughby Community Plan. Proposed Development Permit No. 101105 is attached to this report (Attachment G) and includes renderings, site plans, building elevations, and tree and landscaping plans.
- A variance to reduce the parking required by nine stalls from 335 to 326 is incorporated in proposed Development Permit No. 101105 and is supported based on Objective 4 of the Mobility Strategy in Section 2.5 that provides for consideration of a reduction in parking requirements where transportation demand management measures and connections to pedestrian, bicycle networks and public transit services are provided. The subject

application incorporates bicycle parking and storage in accordance with Zoning Bylaw requirements. The site is across the intersection of 86 Avenue and 202 Street from the Carvolth Transit Exchange and is providing a cross site multi-use path connection between 201B Street and 202 Street.

Streamside Protection Development Permit:

- A Streamside Protection and Enhancement Development Permit is required for this project under Section 4.20 of Schedule 3 of the OCP. Proposed Streamside Protection Development Permit No. 101225 is Attachment H to this report.
- One Class B (yellow-coded) and two Class C (green-coded) watercourses are located on the property. One Class B roadside and one Class C roadside watercourse are located in 86 Avenue.
- The onsite Class C watercourses, and roadside Class B and Class C watercourses are proposed to be infilled to accommodate development and required widening of 86 Avenue.
- The onsite Class B natural watercourse will be protected within a 4,074 m² (1.0 ac) SPEA.
- The SPEA will be restored with native vegetation, protected in a restrictive covenant and subject to a 3-year monitoring and maintenance program.
- Proposed streamside works are consistent with the objectives of the OCP Schedule 3 and the Township's Sustainability Charter.

Community Amenity Contributions:

- The Community Amenity Contributions (CAC) Policy applies to the subject rezoning and specifies target contribution amounts based on unit types.
- As the applicant has proposed more density than permitted by the Carvolth Neighbourhood Plan, the target CAC for the project includes a density bonus contribution for the additional floor space achieved on the lands currently designated Medium Density Apartment. Based on current rates, the CAC calculation for this proposal is as follows:

	Count	Rate	Total
Low Rise Apartments (6-storeys)	223	\$11,000 / unit	\$2,453,000
FSR exceeding Carvolth NP max	6,982 ft ²	\$20 / ft ²	\$139,640
Total			\$2,592,640

Tree Protection / Replacement:

- The applicant has submitted tree management plans indicating the following:

Significant Trees on Site	Replacement Trees Required	Replacement Trees Provided	Street Trees Provided	Total Trees Post Development
4	111	111	40	151

- There are approximately 31 existing trees in the SPEA area which will be retained unless deemed hazardous by the project arborist.
- In addition to the trees listed above, there are approximately 11 significant trees in the proposed pocket park with four proposed to be retained subject to detailed design.

Policy Considerations:

- The proposed Carvolth Neighbourhood Plan amendment, rezoning, form and character development permit and streamside protection development permit applications facilitate:
 - development of 223 apartment units in two 6-storey apartment buildings by amending the land use designation from medium to high density apartment;
 - provision of a pocket park;
 - protection of a streamside area; and,
 - construction of a multi-use path connection from 202 Street to 201B Street.
- In staff's opinion, the proposal is consistent with the overall goals and objectives of the Willoughby Community Plan and Carvolth Neighbourhood Plan.

Staff recommend that Council give first and second reading to Bylaws No. 5895 and 5896 (subject to 13 development prerequisites); authorize issuance (at time of final reading of Bylaw No. 5896) of accompanying form and character Development Permit No. 101105 and Streamside Protection Development Permit No. 101225; and authorize staff to schedule the required Public Hearing for Carvolth Neighbourhood Plan Amendment Bylaw No. 5895 and Rezoning Bylaw No. 5896.
