DISCUSSION/ANALYSIS:

- Architecture Panel Inc. has applied on behalf of the owners to rezone a 0.4 ha (1.1 ac) portion of 7806 – 197 Street to Comprehensive Development Zone CD-190 to facilitate development of approximately 25 townhouses resulting in a density of 38.7 uph (15.7 upa) based on gross developable land area consistent with Section 5.2.1 of the Latimer Neighbourhood Plan.

Zoning Amendment:

- The Townhouse – Bonus land use designation provides for a base density of 20 uph (8 upa) with densities up to 74 uph (30 upa) considered as part of a site-specific rezoning process.
- Bylaw No. 6101 proposes to rezone a portion of 7806 – 197 Street to a new Comprehensive Development Zone CD-190 to permit development of approximately 25 townhouse units at a gross density of 38.7 uph (15.7 upa) and a net density of 56 uph (22.7 upa).
- Consistent with the Latimer Neighbourhood Plan a condition of this rezoning includes provision of dedication and construction of the Latimer Creek greenway along the eastern side of the site.

Development Permit Area 'B' – Residential:

- The subject lands are located in Development Permit Area 'B' – Residential (for form and character) in the Willoughby Community Plan.
- Council, through Bylaw No. 5246 (Development Permit Delegation Bylaw), delegated issuance of Development Permits for residential developments without commercial or industrial components with a density equal to or less than 25 upa to a delegated staff official.
- As the proposed residential development is less than 25 upa, the associated development permit application is being processed concurrently for consideration by a delegated staff official.
- The project will be further reviewed as part of the development permit application process to ensure compliance with, including but not limited to, the following: provisions of the site's proposed CD-190 zoning in terms of siting, lot coverage, height, use and density; landscaping and age-friendly amenity area requirements; fire truck turning radius requirements; and alignment with the Development Permit Area B – Residential guidelines. Staff note that the site plan is conceptual, and resolution of the above requirements may result in a change to the proposed number of units.

Community Amenity Contributions:

- The Community Amenity Contributions (CAC) Policy applies to the subject rezoning and specifies target contribution amounts based on unit types.
- Section 5.2.g of the CAC Policy outlines where an application includes an increase in the residential density beyond that established in the plan, an additional \$20,000 per townhouse unit is applicable.
- The applicant's proposal results in a potential additional 13 units beyond the base 20 uph (8 upa) density in the plan.
- Based on current rates, the CAC calculation for the proposal is as follows:

	Unit Count	Rate per unit	Total
Townhouses	25	\$14,400	\$360,000
Additional Contribution	13	\$20,000	\$260,000
Total			\$620,000

Tree Protection / Replacement:

The applicant has submitted preliminary tree management plans indicating the following:

Significant Trees on Site	Significant Trees Retained	Replacement Trees Required	Replacement Trees Provided	Street Trees Provided	Total Trees Post Development
5	0	31	68	4	72

Detailed Tree Management and Landscape Plans will be provided and reviewed in conjunction with the development permit.

Policy Considerations:

The proposed rezoning application will facilitate development of approximately 25 townhouse units on property located at 7806 – 197 Street. The proposal is consistent with the Willoughby Community Plan and the Latimer Neighbourhood Plan. Staff recommend that Council give first, second, and third reading to Bylaw No. 6101 (subject to nine (9) development prerequisites).
